

AP COMPUTER SCIENCE  
DR. PAUL L. BAILEY

Lesson 0420  
Thursday, April 16, 2020

Fetch Project 35d in document `PCScix35d_GraphTheory.pdf`. Write the `public static Graph component(Graph G, Vertex v)` method and upload the source code to just this method into Microsoft Teams. Try to finish this today but it will be due tomorrow.

Tomorrow your assignment will be an AP problem. Then on Wednesday, another Graph Theory method. I hope this to be engagin as well as good practice for the AP exam.
