

This is a prompt from AP Classroom 1.1: Daily Video 3.

Problem 1. Think of a psychological disorder, or a symptom of a psychological disorder. Try to give it a short name, and also, a reasonably concise description.

Now, try to explain it from each of the three approaches discussed in the video.

Problem 2. (Biological)

Explain this disorder or symptom from the biological perspective.

Problem 3. (Humanistic)

Explain this disorder or symptom from the humanistic perspective.

Problem 4. (Biological)

Explain this disorder or symptom from the sociocultural perspective.
